

NATIONAL ACADEMY OF SCIENCES

OFFICE OF THE PRESIDENT
2101 CONSTITUTION AVENUE
WASHINGTON 25, D. C.

February 13, 1962

Dear Joshua,

As a member of the Space Science Board you know better than I of the plans which are being made for the summer study of the national space science program of the United States. This letter, then, is merely to renew my expression of appreciation for all that you have done to make significant the past activities of the Board, and to add my hope on behalf of the Academy to that of Lloyd Berkner that you will find it possible to participate in the summer study.

With best personal regards, I am

Yours sincerely,

Detlev W. Bronk
President

Dr. Joshua Lederberg
Department of Genetics
School of Medicine
Stanford University
Palo Alto, California
